Best Public API of 2018

Winner Announced!   Nominated APIs   Competition Information

We had 10 nominees for the Best Public API of 2018 award, we received a ton of votes from the community, and now we're happy to announce that the winner of the Best Public API of 2018 competition is RingCentral (https://developers.ringcentral.com/)!

The RingCentral API enables multi-faceted business communication abilities, including voice, SMS, messaging, meetings, and fax. Their developer friendly program features extensive docs, sample apps, and a wide SDK library.

Here are some motivations from the communities votes:

> All around fantastic engineering and ease of use

> Ability to implement SMS into my website in 20 minutes! It just works.

> 99.99 reliability

It allows communications from within a bunch of apps that Small Businesses and Enterprises use on a regular basis (like Google apps, Microsoft cloud apps, SalesForce, etc.). And they keep improving and adding more apps to their ecosystem.

Congratulations

RingCentral®
